I am a natural problem solver, born to consume logical problems and internalize them to generate quick and elegant solutions especially in the face of adversity. I'm driven to find ways to improve how people interact with their technology from smart-phones to smart-homes.

Technical Experience

General Assembly, San Diego,CA
Software Engineering Immersive

October 2019-January 2020

Software engineer Immersive Full-stack web development student at an intensive, twelve-week program focused on common best practices in product development fundamentals, object-oriented programming, MVC frameworks, data modeling, test-driven development, computer science, and team collaboration strategies.

PROFESSIONAL EXPERIENCE

GEICO, San Diego,CA
Claims Service Representative

October 2017-May 2019

Handling claims from incident to resolution saving the company on average 20% over my fellow associates while maintaining a 100% customer satisfaction rating.

Boy Scouts of America SDIC, San Diego, CA
On-Site Store Manager

June 2013 to July 2017

Managing a small team to run a retail operation, purchasing, scheduling, training, and promotion. Saw a 10% year over year revenue rise during my time as manager.

EDUCATION

Point Loma Nazarene University, San Diego — *Computer Science*

August 2015 - Present

Through PLNUs software engineering program I learned the fundamentals of software development and Computer Science from networking all the way down to the OS and CPU level.
